
Introduction and Welcome to

FWG Open Meeting

Masaki Ando (Univ. of Tokyo)

Future Strategy Committee (FSC) Members:

M.Ando (chair), Y.Gao, S.Haino, H.Jin, R.Lee, M.Leonardi, E.Majorana,
Q.Nguyen, S.Saha, L.Shao, K.Somiya, K.Yamamoto, and Z.Zhu

Introduction

- **Advanced R&Ds** are seeds for future upgrades of the project. Moreover, these activities are basis of sustainable growth of our community, with new emerging sciences, and as places for education.
- Advanced R&D activities are based on **internal motivations as scientists** which are free from any political constraints.

Future Working Group

- **Future Working Group (FWG)** under KSC/FSC was established to provide a place to discuss new ideas and techniques for future gravitational-wave detectors. It is **open to every GW researchers**.

<https://gwwiki.icrr.u-tokyo.ac.jp/JGWwiki/KAGRA/KSC/FSC/FWG>

Categorization of R&D activities

	Definition	Framework		Approval and Organized by		Funding	KAGRA Authoership	Group
Porject Task	Design, Development, Installation and Shakedown of Instruments and/or Technology for KAGRA	Inside KAGRA	KAGRA Project	EO/SEO		KAGRA Support (+ External Funding)	Efforts counted	KAGRA Subsystem etc
Project R&D	Research and Development of Technology which KSC/FSC encourage to be Implimented to KAGRA				PRDC			Pjobject R&D Group
			KAGRA Community	KSC/FSC		External Funding		
R&D Group in KAGRA	Research and Development of Emerging Technology which can be implimented to KAGRA in the future				Ad.R&D		Not counted	Future Working Group
General R&D	General research activity	Outside	Science/GW Community	None				Open to community

-
- I hope this FWG 'Open Meeting' to be an open-minded meeting, with new ideas, constructive discussions, and encouragement for young researchers.

Meeting Web Page, Program:
