KAGRA PEM installations

- We are installing the minimum PEMs
    - Accelerometer (each optical table, need to chamber?)
    - Microphone (each clean area)
    - Magnetometer (not completely finished)
    - Seismometer (CS, Xend, Yend 2F)
    - Geo interferometer (distortion of ground, X arm with temperature monitor)
    - Temperature and humidity monitor (some points including the barometer)

- Under discussion:
    - Chamber monitor
    - Weather station
    - Arm monitor
    - RF monitor
    - Power monitor
    - Additional Acc, Mic, Mag, … (3axis?)
    - Analysis tools
    - Noise injection tool
    - Detector health monitor
    - etc…
