OPTICS PACKAGING CONTAINER

PART NUMBER: EW4.00-23082608

MATERIAL: Low-Outgassing, Clear PET-G

CONTAINER DESCRIPTION

Providing 360-degree contact with the optic's edge, both top and bottom, this design offers excellent holding characteristics for thick lenses and mirrors. These containers tend to economize on overall height and diameter relative to the optic being held, and they will accommodate a moderate range of edge thicknesses within a single container.

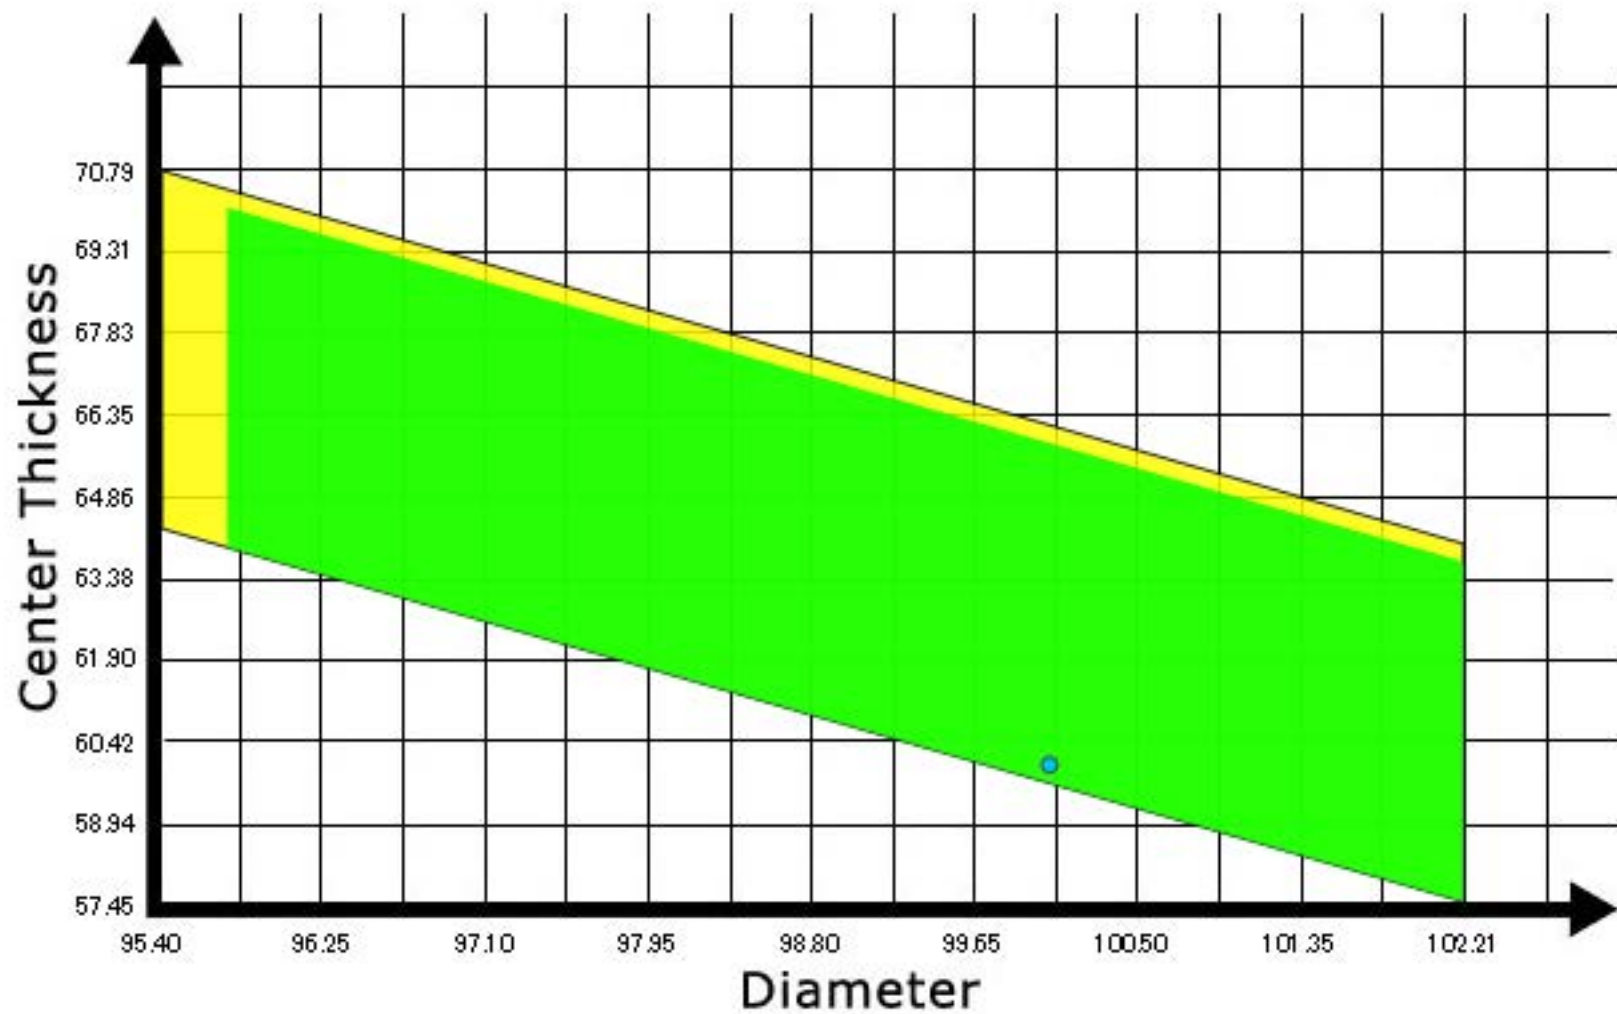

- **Outside diameter:** 159.77 mm.
- This container is not stackable

PRICE LIST

| QTY. OF CONTAINERS | PRICE PER CONTAINER |
|--------------------|---------------------|
| 1-24 | \$25.40 |
| 25-49 | \$23.00 |
| 50-99 | \$17.22 |
| 100-249 | \$15.45 |
| 250-499 | \$13.10 |
| 500-999 | \$11.20 |
| 1000+ | \$9.75 |

Please Note:

\$100 setup charge on orders of less than 100 parts.

This container provides an acceptable packaging solution for any round, plano/plano component with thickness and diameter dimensions that fall within the shaded area.

- Dimensions shown in millimeters.
- Best fit is within the green zone.
- Marginal fit is within the yellow zone.
- Dot indicates thickness and diameter of your optic, if provided.
