

The workstation is mounted on a metal cart with four casters. On the top shelf, there is a black monitor displaying a software interface with a blue background. The interface includes a 'Slave Current (A)' gauge showing a value of 24.53, and several status indicators: 'Master', 'Slave', and 'AQ Pow' (all green 'OK'), 'Standby OFF', and 'LOG ON'. Below the monitor is a black keyboard and a mouse. The middle shelf of the cart holds two server racks. The top rack is labeled 'PBC 87' and 'SU1500W (3U)'. The bottom rack is labeled 'PBC 83' and 'SU1500W (3U)'. To the right of the server racks, there is a vertical stack of components including a 'FILE BOX' and a multi-bay drive unit. The floor is a light-colored, possibly concrete or epoxy-coated surface. In the background, there are various cables, a yellow storage bin, and other equipment racks.
